## Italy: Myplant & Garden in only two weeks

In two weeks, the second edition of the Myplant & Garden will take place at the FieraMilano in Milan, Italy. Over 400 companies, of which more than 70 international, will showcase their products and services. The goal of the exhibition is to customize a “global business and relationship marketplace” for the green protagonists: both companies and professionals, with their own expectations, requests, offers, previews and knowledge.

Last year's edition had 339 exhibitors from the green industry and attracted 14,000 visitors. 12 percent of the exhibitors and 11 percent of the visitors originated from abroad. 24.7 percent of the foreign visitors came from countries outside Europe.
