

Italy: Décor District unites creativity, fashion and beauty

In February 2019, Myplant & Garden, the B2B trade fair of the green industry, will expand the area dedicated to the world of floristry and decoration.

Décor District is the big window where creativity, fashion and beauty attracted thousands of visitors during its last edition in February 2018. Flower-fashion runways, floristry contests with international masters, floristry and decoration labs, signature settings and exceptional ambiances will set new trends.

Myplant attracts professionals from all over the world on exhibiting grounds that are able to involve the big flower markets and the whole chain of accessories.
