

## Special attention for landscaping at Myplant&Garden

Myplant & Garden is preparing to celebrate its TENTH edition, 18-20 February 2026. The theme is 'Green is More'. A special milestone that also marks significant growth: 60,000 m<sup>2</sup> of exhibition space and the debut of MY LANDSCAPE, in Pavilion 8, the new thematic area dedicated to landscape architecture, the environment and constructed greenery.

### **MY LANDSCAPE: where the project takes shape**

Created in collaboration with the architect Sabina Antonini – EN Space network, MY LANDSCAPE was conceived to connect professionals, companies, authorities and institutions involved in the design, construction and management of public and private green spaces.

### **Content, innovation and networking**

In the heart of an exhibition rich in materials, lighting solutions, products and innovations, MY LANDSCAPE offers an extensive programme of round tables, presentations and conferences, as well as a place for

meeting and discussion dedicated to Public administrations, Design studios and freelance professionals, Companies in the sector and specialised operators.

Myplant & Garden is preparing to further expand its horizons, with a larger exhibition area and occupying four pavilions entirely thanks to the strong response from companies. In addition, outdoor areas will also be used for practical demonstrations. Myplant&Garden is located in the Rho exhibitioncenter in Milan. <https://myplantgarden.com/en/>
