

Myplant Garden - Gardening

Myplant B2B exhibition garden is conceived and cherished by international floral companies.

Myplant & Garden is the international B2B exhibition conceived and wanted by floral companies. In 2015, the year of EXPO, Milan welcomes the world and the best floral companies.

An event in which companies and institutions give the city a preview of one of the beloved themes of the Universal Exposition: the connection with nature and earth.

The whole production process will be described through the exhibitors. Nurseries, cut flowers, soils, seeds, greenhouses, vases, services for floral companies, equipment, machines and constructions for gardens are the main sectors of Myplant & Garden. In addition to being an important fair, the events and conferences will give new inspirations to spread the green culture, aiming at a more sustainable world.

Visitors are only professionals from the following sectors: specialized retailers; garden centres; nurseries; flower shops and kiosks; gardeners/maintenance gardeners; landscape architects; construction companies; event managers; hotel, camping, resort and swimming pool managers; institutional managers of public gardens.

At Myplant & Garden trade fair you will find new professional contacts, exchange ideas, discover new realities, market trends and changes. A moment to share new synergies, alliances, projects, works and to make business.
