

20 VARIETIES IN ADROMISCHUS COLLECTION

20 Varieties in Adromischus Collection

Cactus Mania di Manera Bruno produce a wide range of succulents and cactus. This specialist nursery are based in Ventimiglia, on the border between Italy and France.

During the last five years, Cactusmania have participated in IPM Essen and were also exhibiting last month at Myplant & Garden in Milan. This has subsequently increased sales in Europe as well as in

Asia.

Owner Annarita Manera

Unique Compositions

They are offering unique compositions and unusual assortments like the Adromischus collection which has more than 20 varieties. Their special varieties also include *Crassula cornuta* with the silvery leaves, *Senecio articulatus variegatus* with the different forms and colours and the *Scilla socialis variegata* bloomed with thin flowers.

'Just-Right' Plant

Cactusmania produces and sells to different markets. Professionals, collectors, landscapers and the many loyal "Cactus-Maniac" friends, all come to visit their greenhouses to find the 'just-right' plant.
