

ALL SHADES OF ARBORICULTURE

All Shades of Arboriculture

Myplant & Garden 2020 will again confirm its status as the place-to-be next week. (Milan, February 26-28).

Within this event, the arboricultural sector will form a significant part.

Care of Trees

The programme includes urban forest management to the care of trees, from the re-use of urban wood, to live demonstrations on the management and maintenance of plants and trees.

Some of the latest innovations in the industry will be available to view and to discover new professional opportunities.

Urban Green Management

There will be a section in the trade fair that gathers together operators in building, creation, maintenance and management of public and urban green areas.
