

MYPLANT & GARDEN RETURNS IN 2021

Myplant & Garden Returns in 2021

The Milan based trade fair for the Italian garden industry has been re-scheduled for February 15th-17th 2021.

Majority Decision

The switch to 2021 is the result of a choice expressed by the vast majority of exhibiting companies. Given the on-going issues with both safety and travel, the organisers have decided that February 2021 is the best option, allowing companies to move forward and prepare for next year's rendezvous.

Freedom of Movement

This choice is largely shared also by International buyers, who considered: "The Expo can be held only if maximum security and freedom of movement can be guaranteed. The standards of quality and Internationality need to be met, considering the investments that have been made."
